Archivage Long Terme et récupération
des données techniques produits numériques,
telles que CAD 3D et PDM
Partie 007 : Termes et références**

**Luft- und Raumfahrt
LOTAR
Langzeitarchivierung und Bereitstellung
digitaler technischer Produktdokumentationen,
beispielsweise 3D CAD und PDM Daten
Teil 007: Begriffe und Definitionen**

This "Aerospace Series" Prestandard has been drawn up under the responsibility of ASD-STAN (The AeroSpace and Defence Industries Association of Europe - Standardization). It is published for the needs of the European Aerospace Industry. It has been technically approved by the experts of the concerned Domain following member comments.

Subsequent to the publication of this Prestandard, the technical content shall not be changed to an extent that interchangeability is affected, physically or functionally, without re-identification of the standard.

After examination and review by users and formal agreement of ASD-STAN, it will be submitted as a draft European Standard (prEN) to CEN (European Committee for Standardization) for formal vote and transformation to full European Standard (EN).

The CEN national members have then to implement the EN at national level by giving the EN the status of a national standard and by withdrawing any national standards conflicting with the EN.

Edition approved for publication

30 April 2012

Comments should be sent within six months
after the date of publication to
ASD-STAN
